

Get great value with our range of Servers

Insite ProSever EL1200TV - Entry Level Server

Designed to easily handle most basic line-of-business applications, the EL1200TV is a real server solution using best of breed components from industry leaders such as Intel®. It is ideal for use in small schools for back office functions such as a file/print serving, terminal services or even as a host system for small desktop virtualisation networks in classrooms employing Ncomputing workstations.

Default Configuration:

- Mid Tower chassis with 4x 3.5" internal drive bays
- 350W 80PLUS Active PFC Power Supply
- Intel S3420GPLC Server board
- Intel Core i3 540 2.93GHz Processor
- 4GB (2x 2GB) DDR3 1333 ECC RAM
- 2x 500GB SATA Server-class hard drives
- SATA DVDRW drive
- 3 Year base hardware warranty (onsite options available)

Ideal for Microsoft Windows Server 2008 Foundation – available now to order with any Insite EL Series server

RRP: \$1105.00 + GST

Education Buy from: \$1047 + GST

Insite ProServer EL1210TR1 - 1U Rackmount

With more grunt than the EL1200TV, the Insite ProServer EL1210TR features a single Intel Xeon Quad-Core processor housed in a 1U rack-optimized system with 4x 3.5" SAS/SATA hot-swappable hard drive bays. It provides great flexibility and value for any single-application server tasks such as hosting a schools website, extra storage needs, network security, remote terminal services for staff or simply as a backup server for data replication.

Default Configuration:

- 1U Rackmount Chassis with 4x 3.5" hotswap drive bays and rail kit included
- 350W high-efficiency power supply (redundant PSU optional)
- Intel Xeon X3430 2.4GHz Quad Core processor
- 4GB (2x 2GB) DDR3 ECC server RAM
- 500GB 7200rpm Server-Class SATA hard drive
- Includes Intel slimline SATA DVD-ROM drive
- 3 Year base hardware warranty (onsite options available)

RRP: \$1772.00 + GST

Education Buy from: \$1678 + GST

Intel SR2600URLXR - 2U Rackmount Server

One of the most powerful server systems in the Insite arsenal, the SR2600UR series from Intel combines exceptional quality, flexibility, performance and value for money all in one very fast and easy to manage rackmountable package. With the ability to configure the system to your schools exact requirements, the SR2600UR servers can be setup with up to two Six-Core Intel Xeon processors, 96GB RAM, and 6 hot-swappable SAS or SATA hard drives. 100% certified for VMware and Hyper-V, these servers are also ideal for any school looking to virtualise and/or consolidate their existing IT infrastructure in the near future.

Default Configuration:

- Intel SR2600UR 2U Rackmount Server with rail kit included
- 750W high-efficiency hot-swappable power supply (redundant PSU optional)
- Intel Xeon E5620 2.4GHz Quad Core processor
- 6GB (3x 2GB) DDR3 ECC Registered server RAM
- *Bonus! Includes 2x 250GB 7200rpm server-class SATA hard drives
- *Bonus! Includes Intel slimline SATA DVD-ROM drive
- *Bonus! Includes 6th 3.5" hotswap drive bay kit
- 3 Year base hardware warranty (onsite options available)

RRP: \$4216.00 + GST

Education Buy from: \$3994 + GST
